RATE SCHEDULE A-2 (SEASONAL)

Single Phase Service
Effective September 1, 2010

AVAILABILITY

Available by special permission for water pumping, farm buildings (except residences) and equipment at a separate location, and cottages which are occupied for a period aggregating not more than nine months per year. The transformer capacity required shall not exceed 25 KVA.

TYPE OF SERVICE

Single-phase, 60 cycles, at available secondary voltage.

RATE

Base Rate:

- Base Rate @ \$288.00 per year

KWH Rate:

- KWH Per Year @ \$.090 per KWH

MINIMUM CHARGES

The minimum annual charge under the above rate shall be \$288.00.

Where more than 1200 feet of new overhead line extension is required, the member will be responsible for the cost of construction based on current rates for any additional footage.

The minimum will be considered an annual minimum and must be paid in advance before construction begins unless an existing vacant service is in place, or if no poles are required. The member portion of construction costs (if applicable) must also be paid in advance before construction begins.

If the member wishes to terminate service during the first five year period, the unused portion of the minimum will not be refunded. Energy shall be included in accordance with the foregoing rate schedule. The Cooperative will retain the right to determine the transformer capacity to be installed.

COST OF PURCHASED POWER ADJUSTMENT

If at any time after September 1, 2010, the wholesale cost of purchased power is increased or decreased, the seller may increase or decrease the selling cost .1 mills for every .1 mill, or major fraction thereof, the cost of purchased power is increased or decreased. The purchased power adjustment shall be shown as a separate item on the consumer's billing statement.

TERMS OF PAYMENT

The account will be billed annually in December and will include the previous year's usage as well as the next year's base charge. Payment is due upon receipt.
